PIC/MCS 5/60
April 1960

MISSION COVERAGE SUMMARY

Mission C 6046
5 November 1959Summary of Coverage

Mission C 6046, flown 5 November 1959, covered parts of China and Tibet. In China, the Kun-ming area of Yunnan from near the North Vietnam border north to the Szechuan border, the Burma Road area west of Erh Hai (Lake) in western Yunnan, and portions of Sikang and Tsinghai west from the great bend of the Huang Ho (Yellow River) were covered. In Tibet, the Lhasa area and portions of routes north and east into China were covered. Plots of this coverage follow the text of this report.

Quality

Quality of photo images for PI ranges from good to poor. There was cloud cover over parts of Yunnan, but haze, obliquity and great contrasts in relief and in reflected light are chief downgrading factors.

Map References

USAF World Aeronautical Charts, 1:1,000,000
435 Amne Machin Range
436 Ipi Pass
437 Kyi River
496 Tien Lake
555 Lake Erh
616 Red River

Categories

Information is listed by categories, as shown in the Table of Contents. Arrangement within categories is as follows: Airfields and Urban Areas -- alphabetically by (1) country and (2) city or installation; all other categories -- by (1) country, (2) WAC number, and (3) degree square. An index of geographic names follows the text.

Coordinates

Reference to each item by a single pair of coordinates is a matter of convenience in data recall. The coordinates used for reference are those of the southwest corner of the one-minute square in which the item occurs. An exception is made in referring to certain targets, such as roads, where the coordinates of the approximate midpoint are listed in the heading and additional coordinates may be cited in the description if they are needed.
